

## Organisation and Management

|  |                           |            |                                   |
|--|---------------------------|------------|-----------------------------------|
|  | <b>Management Aspects</b> | <b>CO</b>  | <b>Coordinator</b>                |
|  | <b>Scientific Aspects</b> | <b>SiC</b> | <b>Scientist in Charge</b>        |
|  | <b>Training Aspects</b>   | <b>HTC</b> | <b>Head of Training Committee</b> |

Remark 1: SC <-> TC

Note that SC and TC are a priori disjunct. Any shift of money thus has to be decided first by the TC, independently of the SC. Hence the "network management committee" and the "training management committee" are in check and balance concerning the main deliverable, the training months. Only in the exceptional case when the TC proposes a shift of training money between teams, the head of the TC becomes a member of the SC for deciding the matter.

Remark 2: ATO

The CO or the SiC can summon up the ATO at any time, also by means of telecommunication and bring any issue to the vote of the ATO which decides by absolute 2/3 majority (10 TOs vote in favour of the proposition). This way, a 2/3 vote of the ATO overrules any other decision process.
